PROFILE

Computer Science and Engineering graduate who builds practical web applications end to end, from database design to deployment. Looking for a junior software engineer role where I can ship real features, write tested code, and learn from an experienced team.

EDUCATION

B.Sc. in Computer Science and Engineering 2021 – 2025
Example University of Science and Technology, Dhaka
CGPA: 3.62 / 4.00 Thesis: *Detecting handwritten Bangla digits with a small CNN*

Higher Secondary Certificate (Science) 2020
Example College, Dhaka GPA: 5.00 / 5.00

PROJECTS

ShopLedger – inventory and order tracking for small shops 2025
TypeScript, React, Express, PostgreSQL, Docker

- Built a web app that tracks stock, orders and payments for a family-run shop
- Designed the database schema and wrote migrations; added tests for the order logic
- Deployed with Docker on a small cloud server, with daily backups

Bangla Digit Reader – final-year thesis 2024 – 2025
Python, PyTorch

- Trained a compact CNN that reads handwritten Bangla digits with 97% test accuracy
- Collected and cleaned a dataset of 12,000 samples with three classmates

EXPERIENCE

Software Engineering Intern Jun 2025 – Aug 2025
Example Software Ltd., Dhaka

- Fixed bugs and added small features to a React dashboard used by 40+ clients
- Wrote API tests that caught two regressions before release
- Joined code reviews and daily stand-ups in a team of six

TECHNICAL SKILLS

- **Programming:** TypeScript, JavaScript, Python, SQL, C
- **Web:** React, Node.js, Express, HTML, CSS
- **Tools:** Git, Docker, Linux, PostgreSQL, Postman
- **Languages spoken:** Bengali (native), English (professional working proficiency)
- **Volunteering:** ran beginner Git and web workshops at the university programming club
